

## Description

Frame made of durable, food-safe ABS material. It has:

1. Transparent cone and strainer made of food-safe durable polycarbonate.
2. Transparent bowl cover for hygiene reasons.
3. Excellent water-tight motor protection.
4. Illuminated water-tight on-off switch.
5. Slip proof feet.

Three types available:

### 1.ECO

Economy type with bowl made of ABS material. Frame made also of coloured ABS material in five colours: black, cream, grey, yellow, red.

### 2.RAL

Surface of frame treated with acrylic paint providing a special metallic effect.

Available in seven colours: dark red, gold (mustard), silver, dark grey, green, blue, yellow. Wide range of colours upon request. Chrome plated bowl base and stainless steel bowl.

### 3.CHROME

Complete chrome plating for a polished stainless steel look. Chrome plated bowl base and stainless steel bowl.
