

Description

The AK/2 drink mixer is made of durable food-safe ABS material. It has:

1. Two speed on-off switch. Also available type AK/2-VS with five speed switch or /and automatic safety operation switch.
2. Slip-proof feet.
3. Motor ventilation
4. Powerful motor (400W) with safety thermal cut – off (re-activated) for the safety of the appliance and the protection of the motor.
5. Optional can be used with stainless steel whipper or ABS whipper of a smaller diameter.
6. Optional can be used with stainless steel container.

For the preparation of cream it is recommended to use an appliance with automatic and five speed switch and stainless steel container.

Three types available:

1. ECO

Economy type (coloured ABS material) in seven colours: red, blue, yellow, brown, cream, grey, black.

2. RAL

Surface treatment with acrylic paint providing a special metallic effect.

Available

in seven colours: dark red, dark blue, green, dark grey, silver, gold (mustard), yellow. Wide range of colours upon request.

3. CHROME

Complete chrome plating for a polished stainless steel look.
